PROJECT

TITLE: INCOME AND EXPENSE TRACKER

TECHNOLOGIES : HTML, CSS, JAVASCRIPT, REACT.JS

- **Description** : I have created a web page to record all our income and expenses. It is a fully responsive single page website. It has three sections to get, categorize and display details
Form : Which contains input boxes to get the income and expense details from the users.
Income & Expense Chart : Which is used to show the income and expense details by chart.
Transaction : It's used to categorize and show the income and expense details.
- **Objective** : we can have a clear and comprehensive understanding of our transaction to avoid unnecessary expenses.
